

# DevSecOps Manager (f/m/d)

## About Us

Based in Berlin, Rulemapping Solutions stands for innovation at the intersection of law and technology. Our mission is to simplify, accelerate, and make complex bureaucratic processes transparent for everyone. With our unique Rulemapping methodology and Rule AI, we develop solutions that reduce bureaucratic burdens for companies, make legal access easier for individuals, and enable a new way of thinking about public administration.

Supported by the Federal Agency for Disruptive Innovation (SPRIND), we are shaping the standard for the digitalization and automation of rule-based decision-making processes.

Together with you, we want to drive this vision forward and revolutionize the world of rules and laws!

Rulemapping Solutions GmbH is the operational subsidiary of the Rulemapping Group.

## Your Responsibilities

- Independently design and implement a comprehensive DevSecOps strategy to ensure security, compliance, and efficiency throughout the entire Software Development Lifecycle (SDLC).
- Set up, administer, and operate the Rulemapping Platform in a modern cloud environment, including database and application management.
- Ensure high availability and IT security across the entire platform, including test and production environments, CI/CD pipelines, and integration with external providers—especially LLMs (Large Language Models).
- Responsible for business continuity management, including backup & recovery of data and other assets.
- Administer and operate all essential tools for deployment, testing, logging, monitoring, reporting, and alerting to maintain a stable and secure infrastructure.
- Implement and optimize security policies, encryption methods, key management, and access controls within our SaaS cloud environment.
- Automate and integrate security mechanisms into CI/CD pipelines to identify and resolve vulnerabilities early.
- Introduce and continuously improve security measures and incident management processes.
- Play a key role in the Information Security Management System (ISMS) aligned with ISO 27001, including execution of continuous improvement measures.
- Conduct security analyses, penetration tests, and regular audits to ensure compliance with security and privacy standards (e.g. ISO 27001, BSI-C5, NIS2, GDPR).

- Train and raise awareness among development teams regarding secure coding and application security best practices.
- Take ownership of the cloud provider strategy and cloud cost management to optimize spending and use resources efficiently.
- Evaluate and integrate new technologies, tools, and DevSecOps best practices to continuously improve efficiency and security.
- Support or take ownership of in-house IT and internal tools to optimize overall IT operations and infrastructure security.
- Collaborate closely with Product, Delivery, IT Security, and Compliance to develop and implement secure software solutions.

## Your Profile

- Degree in computer science, IT security, or a related field – or a comparable qualification.
- Several years of experience in DevSecOps, IT security, or cloud security, ideally in a SaaS or GovTech environment.
- In-depth knowledge of cloud technologies (AWS, Azure, GCP), Kubernetes, Infrastructure-as-Code (Terraform, Ansible), and CI/CD automation.
- Experience with security tools such as SIEM, IDS/IPS, SAST/DAST, and with monitoring and logging technologies.
- Familiarity with common security standards and regulatory requirements in IT security and data protection.
- Experience with implementing Zero Trust architectures, Identity & Access Management (IAM), and secrets management.
- Strong analytical skills and a solution-oriented mindset.
- Excellent German and English skills (C1 level or higher).

## What We Offer

- We work with a modern tech stack based on standard technologies.
- A key and responsible role in a growing GovTech company.
- Flexible working models and a modern company culture.
- Central office in Berlin-Mitte.
- Innovative projects and long-term career opportunities.
- A dynamic team with lots of space for your own ideas.
- Attractive compensation package.

Are you ready to become part of an innovative team and help shape the future? Don't wait – apply now! Send your application documents to [jobs@rulemapping.com](mailto:jobs@rulemapping.com).
